LIST OF PUBLICATIONS IN NATIONAL & INTERNATIONAL JOURNALS

2014

1. Anumeha Dube, Raghavendra Ashrit, Amit Ashish, Kuldeep Sharma, G.R.Iyengar, E.N. Rajagopal and Swati Basu, 2014: Forecasting the Heavy Rainfall during Himalayan Flooding - June 2014, Weather and Climate Extremes (accepted)

2. A. Routray, S. C. Kar and P. Mali, 2014: Simulation of Monsoon Depressions over Indian Region using WRF-VAR analysis system: Impact of Background Error Statistics, Monthly Weather Review (doi:10.1175/MWR-D-13-00285.1)

3. Gairola, R.M., S. Prakash, C. Mahesh and B. S. Gohil, 2014: Model Function for Wind Speed Retrieval from SARAL-AltiKa Radar Altimeter Backscatter: Case Studies with TOPEX and JASON Data, Marine Geodesy, 37(4), 379–388

4. Gairola, R. M., S. Prakash, M. T. Bushair, and P. K. Pal, 2014: Rainfall estimation from Kalpana-1 satellite data over Indian land and oceanic regions, Current Science (accepted)

5. J. Panda, Harvir Singh, PK Wang, RK Giri, A Routray, 2014: A Qualitative study of Some Meteorological features during tropical Cyclone PHET Using Satellite Observations and WRF Modeling System, Journal of the Indian Society of Remote Sensing, 1-12

6. Johnny, C. J., V. S. Prasad, 2014: Impact of assimilation of Megha-Tropiques ROSA Radio Occultation refractivity by Observing System Simulation Experiment. Current Science, 106 (9), 1297-1305

7. Kar S. C, P. Mali and A. Routray, 2014: Impact of Land Surface Processes on the South Asian Monsoon Simulations Using WRF Modeling System, Pure and Applied Geophysics (doi 10.1007/s00024-014-0834-7)

8. Mahesh, C., S. Prakash, R. M. Gairola, S. Shah, and P. K. Pal, 2014: Meteorological sub-divisional scale rainfall monitoring using Kalpana-1 VHRR measurements, Geographical Research, 52(3), 328-336, (doi:10.1111/1745-5871.12068)

9. Mahesh, C., S. Prakash, V. Sathiyamoorthy, and R. M. Gairola, 2014: An improved approach for rainfall estimation over Indian summer monsoon region using Kalpana-1 data, Advances in Space Research, 54(4), 685-693, (doi:10.1016/j.asr.2014.04.019)

10. Prakash S, A. K. Mitra, Imran M. Momin, E. N. Rajagopal and S. Basu, 2014: Agreement between monthly land rainfall estimates from TRMM-PR and gauge-based observations over the South Asia, Remote Sensing Letters 5(6), 558-567

11. Prakash S, Ashis K. Mitra, Imran M. Momin, E. N. Rajagopal, S. Basu, Mat Collins, Andrew G. Turner, K. Achuta Rao and K. Ashok, 2014: Seasonal intercomparison of observational rainfall datasets over India during the southwest monsoon season International Journal of Climatology, (doi: 10.1002/joc.4129)

12. Prakash S, R. M. Gairola and A. K. Mitra, 2014: Comparison of large-scale global land precipitation from multisatellite and reanalysis products with gauge-based GPCC data sets, Theoretical and Applied Climatology, (doi 10.1007/s00704-014-1245-5)

13. Prakash S, R. M.Gairola, F. Papa and A. K.Mitra, 2014: An assessment of terrestrial water storage, rainfall and river discharge over the Northern India from satellite data, Current Science (accepted)

14. Prakash, S., V. Sathiyamoorthy, C. Mahesh, and R. M. Gairola, 2014: An evaluation of high-resolution multisatellite rainfall products over the Indian monsoon region, International Journal of Remote Sensing, 35(9), 3018-3035, (doi:10.1080/01431161.2014.894661)

15. Prasad, V. S., S. Mohandas, S. K. Dutta , M. Das Gupta, G. R. Iyengar, E. N. Rajagopal and S. Basu, 2013: Improvements in Medium Range Weather Forecasting System of India, Journal of Earth System Science 123(2) 247-258

16. Ranade Ashwini, Ashis K.Mitra, N. Singh and Swati Basu, 2014: A Verification of Spatio-temporal Monsoon Rainfall Variability across Indian region using NWP Model Output, Meteorology and Atmospheric Physics.

17. S. Kiran Prasad, U. C. Mohanty, A. Routray, Krishna K. Osuri, S.S.V.S. Ramakrishna and Dev Niyogi, 2014: Simulation of thunderstorms during pre-monsoon season over Indian region using WRF-3DVAR analysis system, Natural Hazards, (doi: 10.1007/s11069-014-1250-0)

18. Saji Mohandas and Raghavendra Ashrit, 2014: Sensitivity of different convective parameterization schemes on tropical cyclone prediction using a mesoscale model. Natural Hazards, (doi 10.1007/s11069-013-0824-6)

19. Someshwar Das, U. C. Mohanty, Ajit Tyagi, D. R. Sikka, P. V. Joseph, L. S.Rathore, Arjumand Habib, Saraju K. Baidya, Kinzang Sonam, Abhijit Sarkar, 2014: The SAARC STORM: A Coordinated Field Experiment on Severe Thunderstorm Observations and Regional Modeling over the South Asian Region, BAMS(AMS),95(4), 603-617.

20. Surya K. Dutta, V. S. Prasad and D. Rajan, 2014: Impact study of integrated precipitable water estimated from Indian GPS measurements Mausam (accepted)

21. Sumisha Velloth, Raghavendra S. Mupparthy, B.R. Raghavan and Shailesh Nayak, 2014: Coupled correction and classification of hyperspectral imagery for mapping coral reefs of Agatti and Flat Islands, India, International Journal of Remote Sensing, 35:14, 5544-5561, (doi:10.1080/01431161.2014.926410)

22. Sushil Kumar, A. Routray, Rashmi Chauhan and Jagabandhu Panda, 2014: Impact of Parameterization Schemes and 3DVAR Data Assimilation for Simulation of Heavy Rainfall Events along West Coast of India with WRF Modeling System, International Journal of Earth and Atmospheric Science, 1, 18-34.

2013

1. Ashis K. Mitra, E. N. Rajagopal, G. R. Iyengar, D. K. Mahapatra, I. M. Momin, A. Gera, K. Sharma, J. P. George, R. Ashrit, M. Dasgupta, S. Mohandas, V. S. Prasad, Swati Basu, A. Arribas, S. F. Milton, G. M. Martin, D. Barker and M. Martin, 2013: Prediction of Monsoon using a Seamless Coupled Modeling System, Current Science, 104(10),1369- 1379.

2. Ashok Kumar, A. K. Mitra, A. K. Bohra, G. R. Iyengar and V. R. Durai, 2013: Multi-Model Ensemble (MME) Prediction of Rainfall using Canonical Variates During Monsoon Season in India, Mausam, 64(2), 211-220

3. Collins, M., K. Achuta Rao, K. Ashok, S. Bhandari, A. K. Mitra, S. Prakash, R. Srivastava and A. Turner, 2013: Observational Challenges in Evaluating Climate Models, Correspondence section, Nature Climate Change, 3(11), 940-941.

4. D. Rajan and G R. Iyengar, 2013: Dynamical Monsoon Indices, International Journal of Earth Sciences and Engineering, 06 (5), 1000-1011

5. Harvir Singh and O. P Singh, 2013: Satellite derived precipitation estimates over the Indian region during southwest monsoons, Indian Journal of Geophysical Union 17 (1), 65-74

6. Jagvir Singh, 2013: Application of Weather Forecasting In Mountaineering, Nehru Mounataineering Journal, 15, 77-88

7. K. Sowjanya, Sarat Kar, A. Routray and P. Mali, 2013: Impact of SSM/I retrieval data on the systematic bias of analyses and forecasts of the Indian summer monsoon using WRF Assimilation system. International Journal of Remote Sensing, 34, 631-654.

8. M. Das Gupta and S. Indira Rani, 2013: Validation of Kalpana-1 atmospheric motion vectors against upper air observations and numerical model derived winds, International Journal of Remote Sensing, 34:7, 2350-2367

9. Manjusha Chourasia, R. G. Ashrit and John P. George, 2013: Impact of cyclone bogusing and regional assimilation on tropical cyclone track and intensity predictions, Mausam, 64, 1, 135-148.

10. Mitra, A. K., I. M. Momin, E. N. Rajagopal, S. Basu, M. N. Rajeevan and T. N. Krishnamurti, 2013, Gridded Daily Indian Monsoon Rainfall for 14 Seasons: Merged TRMM and IMD Gauge Analyzed Values, J. of Earth System Science, 122(5), 1173-1182.

11. Momin, I. M., A. K. Mitra, D. K. Mahapatra, E. N. Rajagopal and L.Harenduprakash, 2013: Indian Ocean Simulation Results from NEMO Global Ocean Model, Ind. J. of Geo-Marine Sciences, 42(4), 425-430

12. Momin,I. M., A. K.Mitra, D. K.Mahapatra, A. Gera and E. N. Rajagopal, 2013, Impact of Model Resolutions on Indian Ocean Simulations from NEMO Global Ocean Model, Ind. J. of Geo-Marine Sc., (accepted)

13. Osuri, K. K., U. C. Mohanty, A. Routray, M. Mohapatra, and D. Niyogi, 2013: Real-time Track Prediction of Tropical Cyclones over the North Indian Ocean using the ARW model, J. Appl. Meteorol. Climatol., 52, 2476–2492.

14. Prakash, S., and R. M. Gairola, 2013: Estimation of sea surface salinity in the tropical Indian Ocean by synergistic use of SMOS and RAMA buoy data, Methods in Oceanography, 8, 33-40, doi:10.1016/j.mio.2014.06.003.

15. Routray, U. C. Mohanty, Krishna K. Osuri, and S. Kiran Prasad, 2013: Improvement of Monsoon Depression Forecast with Assimilation of Indian DWR Data using WRF-3DVAR Analysis System, Pure and Appl. Geoph. 170, 2329-2350.

16. S. C. Kar and Sapna Rana, 2013: Interannual Variability of Winter Precipitation over Northwest India and Adjoining Region: Impact of Global Forcings. Theor. Appl. Climatol., DOI 10.1007/s00704-013-0968-z

17. S. Indira Rani and M. Das Gupta, 2013: An inter-comparison of Kalpana-1 and Meteosat-7 Atmospheric Vectors against Radiosonde winds and NWP forecasts during Monsoon 2011, Meteorological Applications,doi:10.1002/met.1411

18. S. Indira Rani and M. Das Gupta, 2013: Oceansat-2 and RAMA buoy winds: A comparison. Journal of Earth System Sciences 122(6), 1571-1582

19. S. Indira Rani, M. Das Gupta, Priti Sharma and V. S. Prasad, 2013: Inter-comparison of Oceansat-2 and ASCAT winds against in-situ buoy observations and short-term numerical forecasts. Atmosphere Ocean (accepted)

20. Saji Mohandas and R. Ashrit, 2013, Sensitivity of different convective parameterization schemes on tropical cyclone prediction using a mesoscale model, Natural Hazards, 73(2) 213-235

21. Surya K Dutta, and V. S. Prasad, 2013: Impact of Precipitation Rate Assimilation over India and Surrounding Regions. Earth Science Research, 2(1).

22. U. C. Mohanty, N Acharya, Ankita Singh, Archana Nair, M. A. Kulkarni, S. K. Dash, S. C. Kar, A. W. Robertson, A. K. Mitra, L. S. Rathore, K. K. Singh, D. R. Pattanaik, Dalip Singh, S. Chattopadhyay, R. K. Rai, M. M. N. Rao, P. Sinha, R. K. Pal and A. K. Mishra, 2013: Real-time experimental extended range forecast system for Indian summer monsoon rainfall: a case study for monsoon 2011, Current Science, 104 (7), 856-870

23. V. S. Prasad, Anjari Gupta, E. N. Rajagopal and Swati Basu, 2013: Impact of OSCAT surface wind data on T574L64 assimilation and forecasting system – a study involving tropical cyclone Thane. Current Science, 104(5), 627-632

2012

1. Abhilash, S., A. K. Sahai, K. Mohankumar, John P. George and Someshwar Das, 2012: Assimilation of Doppler Weather Radar Radial Velocity and Reflectivity Observations in WRF-3DVAR System for Short-Range Forecasting of Convective Storms. *Pure and Applied Geophysics. doi: 10.1007/s00024-012-0462-z.*

2. Ankita Singh, M. A. Kulkarni, U. C. Mohanty, S. C. Kar, A Robertson and G. Mishra, 2012: Prediction of Indian summer monsoon rainfall (ISMR) using canonical correlation analysis of global circulation model products. Meteorol. Appl., 19, 179–188, doi: 10.1002/met.1333

3. Krishna K. Osuri, U. C. Mohanty, A. Routray, Makarand A. Kulkarni & M. Mohapatra, 2012: Customization of WRF-ARW model with physical parameterization schemes for the simulation of tropical cyclones over North Indian Ocean, Nat Hazards, 63(3) 1337–1359. ,

4. Kumar A., Mitra A. K., Bohra A. K., Iyengar G. R. and Durai V. R., 2012: Multi-Model Ensemble (MME) prediction of rainfall using neural networks during monsoon season in India' *Meteorological Applications 19, pp 161-169*

5. Kumar A., Pai D. S., Singh J. V., Singh Ranjeet and Sikka D. R., 2012: Statistical models for long-range forecasting of southwest monsoon rainfall over India using stepwise regression and neural network.' *Atmospheric and Climate Sciences* 2, 322-336.

6. Litta A. J, U. C. Mohanty, Someshwar Das and S. M. Ididcula, 2012: Numerical Simulation of Severe Local Storms over East India using WRF-NMM mesoscale model.Jour.Atmos.Res.http://dx.doi.org/10.1016/j.atmosres.2012.04.015.

7. Mohanty U. C., Routray A., Krishna K. Osuri and Kiran S. Prasad, 2012: A Study on Simulation of Heavy Rainfall Events Over Indian Region with ARW-3DVAR Modeling System, Pure Appl. Geophys. 169,2012, 381–399

8. P. Sinha, U. C. Mohanty, S. C. Kar, S. K. Dash & S. Kumari, 2012: Sensitivity of the GCM driven summer monsoon simulations to cumulus parameterization schemes in nested RegCM3, Theor. Appl. Climatol., (doi 10.1007/s00704-012-0728-5)

9. P. Sinha, U. C. Mohanty, S. C. Kar, S. K. Dash, M. Tippett, A. Robertson, 2012: Seasonal Prediction of the Indian Summer Monsoon Rainfall using Canonical Correlation Analysis of Global Model Products, *Int. J. Climatol*., 32, (doi: 10.1002/joc.3536)

10. Rahman, M. M., D. S. Arya, N. K. Goel and A. K. Mitra, 2012: Rainfall Statistics Evaluation of ECMWF Model and TRMM Data over Bangladesh for Flood Related Studies ", *Met. Applications (doi: 10.1002/met.293)*

11. Routray, Krishna K. Osuri, and Makarand A. Kulkarni, 2012: A Comparative Study on Performance of Analysis Nudging and 3DVAR in Simulation of a Heavy Rainfall Event Using WRFModeling System, *International Scholarly Research Network (ISRN) Meteorology, doi:10.5402/2012/523942*

2011

1. Dutta, Surya K., V. S. Prasad, 2011: Impact of Gridpoint Statistical Interpolation Scheme over Indian Region; J. Earth Syst. Sci., 120, 6, pp. 1095-1112

2. M. A. Kulkarni, N. Acharya, S. C. Kar, U.C. Mohanty, M. Tippett, A. Robertson, J. Luo and T. Yamagata, 2011: Probabilistic prediction of Indian Summer Monsoon Rainfall using Global Climate Models, Theor. Appl. Climatol, DOI 10.1007/s00704-011-0493-x

3. Mitra, A. K., G. R. Iyengar, V. R.Durai, J. Sanjay, T. N. Krishnamurti, A. Mishra and D. R. Sikka, 2011: Experimental Real-Time Multi-Model Ensemble (MME) Prediction of Rainfall During Monsoon 2008: Large-Scale Medium-Range Aspects, J. Earth Syst. Sci., 120, 1, 27-52

4. N. Acharya, S. C. Kar, M.A. Kulkarni, U. C. Mohanty, & L. N. Sahoo, 2011: Multi-model ensemble schemes for predicting northeast monsoon rainfall over peninsular India, J. Earth Syst. Sci., 120, 795-805

5. N. Acharya, S. C. Kar, U. C. Mohanty, M. A. Kulkarni & S. K. Dash, 2011: Performance of GCMs for seasonal prediction over India- a case study for 2009 monsoon. Theor. Appl. Climatol, DOI 10.1007/s00704-010-0396-2

6. Rahman, M. M., D. S. Arya, N. K. Goel and A. K. Mitra, 2011: Rainfall Statistics Evaluation of ECMWF Model and TRMM Data over Bangladesh for Flood Related Studies , Meteorological Applications, doi: 10.1002/met.293

7. S. C. Kar, 2011: Representation of Uncertainties in Seasonal Monsoon Predictions using a Global Climate Model, Challenges and Opportunities in Agrometeorology, Attri, S.D.; Rathore, L. S.; Sivakumar, M. V. K.; Dash, S. K. (Eds.), Springer publications, 61-72.

8. S. C. Kar, G. R. Iyengar and A. K. Bohra , 2011: Ensemble spread and systematic errors in the medium-range predictions during the Indian summer monsoon. *Atmósfera 24(2), 173-191*

9. S. C. Kar, N. Acharya, U.C. Mohanty, & M.A. Kulkarni, 2011: Skill of monthly rainfall forecasts over India using multi-model ensemble schemes, Int. J. Climatol. 31, 1-16, DOI: 10.1002/joc.

2010

1. Ashrit Raghavendra and Saji Mohandas, 2010: Mesoscale model forecast verification during monsoon 2008, Journal of Earth System Sciences, Vol. 119, No. 4, August 2010.

2. D. Rajan, T. Koike, 2010: Southwest and northeast monsoon season of India during 2004 by general circulation models PART1, International Journal of Meteorology Vol 35 No 344 147-154
