

**Papers published in MAUSAM, Volume 56, Number 1, January 2005  
Special issue on AMREX**

	<i>Pages</i>
<b>FROM THE GUEST EDITOR</b>	<i>i</i>
<b>I. BACKGROUND, EXPERIMENTAL DESIGN AND LARGE SCALE ATMOSPHERIC FEATURES</b>	
Arabian Sea monsoon experiment: An overview <span style="float: right;">– P. Sanjeeva Rao</span>	1
Synoptic weather conditions during ARMEX <span style="float: right;">– H. R. Hatwar, Rajendra Kumar Jenamani, S. R. Kalsi and S. K. Subramanian</span>	7
From the International Indian Ocean Experiment (IIOE) to the Arabian Sea Monsoon Experiment (ARMEX) – four decades of major advances in monsoon meteorology <span style="float: right;">– D. R. Sikka</span>	19
Off shore trough and very heavy rainfall events along the West Coast of India during ARMEX-2002 <span style="float: right;">– O. P. Madan, U. C. Mohanty, Gopal Iyenger, R. P. Shivhare, Askav Prasad Rao, N. V. Sam and R. Bhatla</span>	37
A study on the convective structure of the atmosphere over the West Coast of India during ARMEX-I <span style="float: right;">– U. C. Mohanty, N. V. Sam, S. Das and S. Basu</span>	49
Response of sea state to the monsoon onset <span style="float: right;">– O. P. Singh and H. R. Hatwar</span>	59
Air-sea interaction properties in the eastern Arabian Sea during active phase of off-shore trough (IOP 7-9 August ARMEX-2002) <span style="float: right;">– G. R. Chinthalu, S. G. Nagar and P. Seetaramayya</span>	65
A numerical study of the influence of synoptic flow on coastal meso-scale circulations on the East and West Coasts of India <span style="float: right;">– C. V. Srinivas, R. Venkatesan and A. Bagavath Singh</span>	73
Episodes of aircraft icing during ARMEX phase-I <span style="float: right;">– R. P. Shivhare</span>	83
<b>II. MESO-SCALE ASPECTS AND MODELLING</b>	
Convection inhibition energy of the inversion and the suppressed rainfall over the Arabian Sea during July 2002 <span style="float: right;">– G. S. Bhat</span>	89
Diurnal and intraseasonal variations observed on the West Coast of India <span style="float: right;">– G. S. Bhat, Prashanth L. Rao, V. G. Sangolli, G. P. Bhat, A. B. Chandekar, H. Rao and V. B. Kadav</span>	97
Study of heavy rainfall event over West Coast of India using analysis nudging in MM5 during ARMEX-I <span style="float: right;">– A. Routray, U. C. Mohanty, Ananda K. Das and N. V. Sam</span>	107
Impact of special observations on the numerical simulation of a heavy rainfall event during ARMEX-Phase I <span style="float: right;">– D. V. Bhaskar Rao and D. Hari Prasad</span>	121
An impact of ARMEX data on limited area model analysis and forecast system of India Meteorological Department - A preliminary study <span style="float: right;">– H. R. Hatwar, Y. V. Rama Rao, S. K. Roy Bhowmik, D. Joardar and Geeta Agnihotri</span>	131
Validation of upper-air observations taken during the ARMEX-I and its impact on the global analysis-forecast system <span style="float: right;">– M. Das Gupta, Someshwar Das, K. Prasanthi, P. K. Pradhan and U. C. Mohanty</span>	139
<b>III. WARM POOL OVER THE SOUTHEAST ARABIAN SEA AND ITS DYNAMICS</b>	
Role of ocean in the genesis and annihilation of the core of the warm pool in the southeastern Arabian Sea <span style="float: right;">– S. C. Shenoi, D. Shankar, V. V. Gopalakrishna and F. Durand</span>	147

Moored buoy observations in Arabian Sea warm pool	
– <i>K. Jossia Joseph, M. Harikrishnan, G. Rajesh and K. Premkumar</i>	161
Characteristics of Arabian Sea mini warm pool during May 2003	
– <i>P. V. Hareesh Kumar, P. Madhusoodanan, M. P. Ajai Kumar and A. Raghunadha Rao</i>	169
Response of Arabian Sea to the local forcing during 2003 pre-monsoon warming phase	
– <i>J. S. Chowdary, C. Gnanaseelan, Bijoy Thompson, S. K. Sinha and P. S. Salvekar</i>	175
Evolution and collapse of Arabian Sea warm pool during two contrasting monsoons 2002 and 2003	
– <i>C. Gnanaseelan, Bijoy Thompson, J. S. Chowdary and P. S. Salvekar</i>	187

#### IV. ATMOSPHERIC BOUNDARY LAYER AND FLUXES OVER ARMEX AREA

Conserved variable and observational analysis over the West Coast of India during ARMEX-2002	
– <i>N. V. Sam, U. C. Mohanty and P. S. Kaur</i>	201
Variation of water vapor and CO <sub>2</sub> at Goa during ARMEX phase-I and II	
– <i>Cini Sukumaran, T. Rajitha Madhu Priya, T. Dharmaraj, B. S. Murthy and S. Sivaramakrishnan</i>	213
Atmospheric boundary layer during ARMEX-2002 at stationary positions - comparative study	
– <i>Savita B. Morwal</i>	221
Atmospheric boundary layer observations on the East Coast at Kalpakkam using Doppler mini-sodar during different seasons	
– <i>A. Bagavath Singh, R. Venkatesan, C. V. Srinivas and K. M. Somayaji</i>	233
Characteristics of mixed layer over Arabian Sea during summer monsoon-2002	
– <i>M. N. Patil, B. S. Murthy and S. Sinha</i>	243
Surface fluxes over Goa during Indian monsoon	
– <i>B. S. Murthy and S. Sivaramakrishnan</i>	251
The variation of surface heat fluxes during Arabian Sea monsoon experiment	
– <i>K. Gopala Reddy, G. Bharathi, P. Sree Ram, M. V. Subrahmanyam and K. Muni Krishna</i>	257

#### V. ACOUSTIC PROPAGATION OF OCEAN WAVES OVER THE ARMEX AREA

Wave hindcast for the Indian Ocean region covering the period of ARMEX-I (June-August 2002)	
– <i>J. Swain, M. K. Singh, Chanchal De, D. Vijayakumar and N.R. Venkitachalam</i>	263
Simulation of internal waves using GM model and comparison against measurements during ARMEX-I	
– <i>G. V. Krishna Kumar and J. Swain</i>	269
Observations of internal wave oscillations in the upper thermocline based on CTD-yoyo measurements during ARMEX-I	
– <i>J. Swain, Chanchal De, K. A. Abdul Salam and V. G. Radhakrishnan</i>	275
Underwater acoustic propagation experiments during ARMEX	
– <i>C. V. K. Prasada Rao, J. Swain, P. V. Hareesh Kumar, P. V. Nair, V. N. Panchalai and R. K. Shukla</i>	281

#### VI. ATMOSPHERIC AEROSOLS OVER SOUTHEAST ARABIAN SEA

First observations of aerosol black carbon over coastal Arabian Sea during ARMEX	
– <i>S. Suresh Babu, K. Krishna Moorthy and S. K. Satheesh</i>	287
Physical and chemical characteristics of aerosols over Arabian Sea during ARMEX 2002- 03	
– <i>P. S. P. Rao, P. S. Praveen, D. M. Chate, K. Ali, P. D. Safai and G. A. Momin</i>	293
Airborne measurements of the size distribution of submicron aerosols over the Arabian Sea during ARMEX – Phase I	
– <i>P. Murugavel, V. Gopalakrishnan and A. K. Kamra</i>	301
Transport of Ca <sup>2+</sup> and SO <sub>4</sub> <sup>2-</sup> aerosols during southwest monsoon from north African and Gulf countries towards India	
– <i>P. S. Praveen, P. S. P. Rao, P. D. Safai, D. M. Chate, K. Ali and G. A. Momin</i>	315
Aerosol size distribution over the Arabian Sea during ARMEX-II	
– <i>S. V. Sunilkumar, Prabha R. Nair and K. Parameswaran</i>	321
